

Adult Outpatient Therapist

Job Summary

Join an expanding team of outpatient therapists at Shiawassee Health & Wellness. SHW is an innovative Community Mental Health organization nestled in a rural community. We are seeking a clinician to provide individual therapy services to support adults who are diagnosed with a mental illness or have a co-occurring (substance use) disorder. SHW has an established DBT team and can offer training for clinicians interested in providing this treatment modality. Therapy services are provided in a comfortable office Monday through Friday with a flexible schedule. The therapist is provided clinical support and supervision to manage scheduling, documentation, as well as clinical case consultation.

Responsibilities and Duties

Responsibilities include assessing and identifying treatment needs and developing service plans to support individuals in their journey toward recovery. Skills in motivational interviewing and solution focused techniques are desired. Clinicians will have opportunities to learn and apply evidenced based practices, groups and provide crisis intervention to ensure the safety of individuals served.

Qualifications and Skills

Master's degree in social work (LLMSW or LMSW preferred), counseling (LLPC or LPC) or psychology (LLP) with one year experience working with individuals with chronic mental illness, and two years' experience in a human services agency required. Licensing supervision may be available at no cost. Ample opportunities are provided for professional development.

Benefits

Excellent benefit package including 12 paid holidays and 26 workdays of Paid Time Off (PTO) annually, health, dental, and vision Insurance, short and long term disability, life insurance, employer sponsored pension, and much more.

Send resume to Shiawassee Health & Wellness, Attn: HR-OPT, 1555 Industrial Drive, Owosso, MI 48867, Fax 989-723-0894, or email to jobs@shiabewell.org.
